

ICTS UK & Ireland Chartered Management Institute (CMI) Programme

On 6 March 2017, 56 ICTS staff members who successfully participated in ICTS UK & Ireland's first Chartered Management Institute (CMI) Programme, gathered in London for the presentation of their certificates.

ICTS' Chartered Management Programme was launched in the first quarter of 2016, a team of ICTS staff having been trained to deliver the courses internally. Since then, a total of 10 CMI courses have been run by ICTS, 5 CMI Level 3 and 5 CMI Level 5. The courses have been attended by staff from different departments and operations across the UK and Ireland.

The 'Level 3 Award in First Line Management' is developed for First Line Managers who have operational responsibility for a defined area of activity and who wish to build upon and develop their existing management skills and knowledge. This qualification gives First Line Managers the communication and motivational skills to help improve operational efficiency.

The 'Level 5 Award in Management and Leadership' enables Managers to strengthen and develop their knowledge of middle management by focusing on specific management areas identified in the NOS (National Occupational Standards) that are applicable to their job.

"The Directors and I, are strong believers in life-long learning. The CMI programme will both benefit our staff's personal career progression, and better equip our staff to manage the growing business of ICTS.

As a Company, we will continue to focus on giving staff the opportunities and tools to reach career satisfaction and promoting our culture of professionalism" said Ashley Bancroft, Managing Director, ICTS UK & Ireland.
