

Digger – an Explosives Search Dog and Pets as Therapy (PAT) Dog

While off duty, ICTS Handler, Dave Frost and his Explosives Search Dog, Digger, spend time in the local community. Dave and Digger routinely volunteer at Little Havens Hospice for children, based in Thundersley, Essex.

“Just over a year ago Digger became a certified Pets as Therapy (PAT) Dog and since then, we have been spending time with children and their families at Little Havens. Digger’s incredibly calm and gentle temperament makes him a perfect PAT dog. We get to meet children of all ages with life-limiting conditions and hopefully make a difference to their day” said Dave Frost, ICTS Handler, Canine Security Services.

Dave, a former Policeman, has been working with dogs for the last 28 years. During the last 10 years with the Police Dave trained Police Dogs. Nowadays, Dave and Spaniels, Digger and Rogue, provide security screening services in places such as Canary Wharf, the Tower of London and Arsenal Football Club.
