

# ICTS Reusable water bottles Introduced to Employees

Reusable water bottles were issued to ICTS UK & Ireland staff at the end of 2019 as part of our incentive to reduce the consumption of single-use plastic bottles and to highlight the importance of staying hydrated.

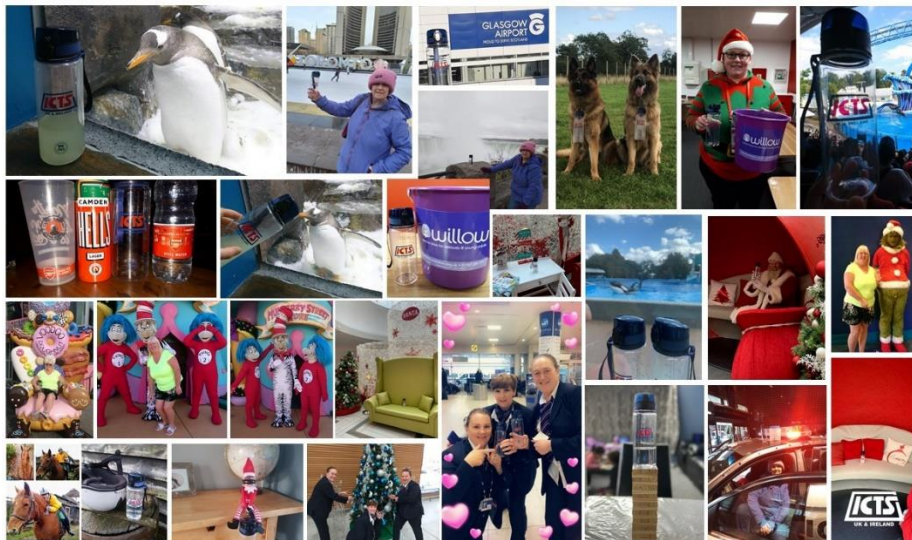

The bottles are **BPA Free**, practical and **re-usable** - perfect for taking to work and when out and about.

It is important to stay hydrated. **Water makes up two thirds of our body.** It is vital we drink enough fluid to maintain a healthy balance. Many people get dehydrated by not drinking enough fluid or by losing fluids and not replacing them.

Together, we can make a big difference. In the UK, it's estimated that 38.5 million plastic bottles are used every day, yet of these **15 million are not recycled** to the detriment of the environment.

An internal competition was run, which saw staff post photos on Yammer (our closed social media network) of the new bottles in use both at work and off duty.

Olivia Pambou, Bids & Marketing Manager – ICTS UK & Ireland said, “We are pleased with the engagement shown by ICTS staff following this campaign. Being an ISO 14001 (Environmental) accredited company, this is adding to other initiatives ICTS has been implementing. A special thanks again to Louise Cameron (Regional Manager - Scotland) and Helen Plowman (ICTS HR Advisor at Bristol Airport) for suggesting this worthwhile initiative.”
