

EMPLOYEE OF THE YEAR 2022 GERRY O'REILLY

Many congratulations to Gerard (Gerry) O'Reilly who has been selected as our ICTS UK & Ireland 2022 Employee of the Year.

Gerry's swift actions prevented significant damage to an aircraft engine at Dublin Airport last year. Strong winds had blown a baggage cart towards the engine of an aircraft and Gerry raised the alarm and ran to intercept it, managing to reduce its speed. As a result of Gerry's efforts, the engine only suffered minor damage and the aircraft was able to depart safely.

Gerry, a Security Agent, joined our team at Dublin Airport in May 2016. Prior to working for ICTS Gerry was involved in aircraft engine maintenance and testing.

"What I did came natural as I always looked around to pay attention to what was happening around me, both for my own safety and for the safety of others. The ramp can be a dangerous place and we have to look out for each other. I am very pleased to accept this award both for myself and for ICTS Ireland."

- Gerry O'Reilly, Employee of the Year 2022

As part of our Employee of the Quarter scheme, if we have fewer than 3 nominations per sector, we put the excess award money into a charity pot. The Employee of the Year chooses a registered charity close to their heart to which to award the total amount in the pot. The 2022 charity pot amounted to €2,800 and Gerry's charity of choice was the St. Francis Hospice Dublin (Raheny branch).

"On behalf of St Francis Hospice Dublin, I would like to extend our gratitude to ICTS for their support. It is fantastic to be nominated and acknowledged in this way."

"As the population grows and ages, the need for the type of specialist care that St Francis Hospice offers will increase. In 2022, we cared for 1,932 patients; by the end of the decade, we expect to be providing services to an additional 550 patients and their families each year. We must grow and adapt our services to meet this need."

"With the ongoing support of the community and companies like ICTS we are able to develop new services to meet the growing needs of our patients and their families."

- Eimear Kellett, Partnerships and Philanthropy Manager – St. Francis Hospice Dublin
