WORLD ENVIRONMENT DAY – 5 JUNE 2026

ICTS UK & IRELAND

WHAT WE HAVE ACCOMPLISHED
over the last 12 Months:

SAF CREDITS
Invested in Sustainable Aviation Fuel (SAF) Credits — purchasing 4.5 tCO_2e of credits to reduce indirect emissions from corporate aviation travel by 30% by 2030.

EVs
Continued to transition our fleet to electric and hybrid vehicles, getting ahead of the forthcoming UK's Zero Emission Vehicle (ZEV) mandate.

Memberships
Renewed our memberships with the United Nations Global Compact, SEDEX and the Supply Chain Sustainability School (Silver Award members).

UN Global Compact · Sedex · Supply Chain Sustainability School

Dashboards & Reports
Published our Annual Communication on Progress (CoP) CSR Report to the United Nations Global Compact (UNGC), demonstrating our transparency and accountability on environmental performance.

LOOKING AHEAD:

Environmental Policy
We have updated our Environmental Policy to align with ISO 14001:2026, formally incorporating 'Climate Change' as a risk. This puts us in a strong position ahead of our recertification audit later this year.

EcoVadis
EcoVadis sustainability re-accreditation.

Reduction of emissions
We will continue to progress the transition of our fleet to electric and hybrid vehicles and ICTS will continue to focus on reaching our target to reduce our Scope 1 fleet emissions.
